

PDM to PLM

PDM

PDM takes control of designs, documents, BOMs and processes, primarily to drive engineering efficiency and productivity, but also to improve collaboration across the business.

PLM

PLM not only manages all product-related data, but also extends the benefits of PDM to support the whole business across the product lifecycle, with specialized applications for engineering, manufacturing, procurement, purchasing, suppliers, customers, sales and service.

1. Take the easy first step with PDM

Faster time-to-benefit

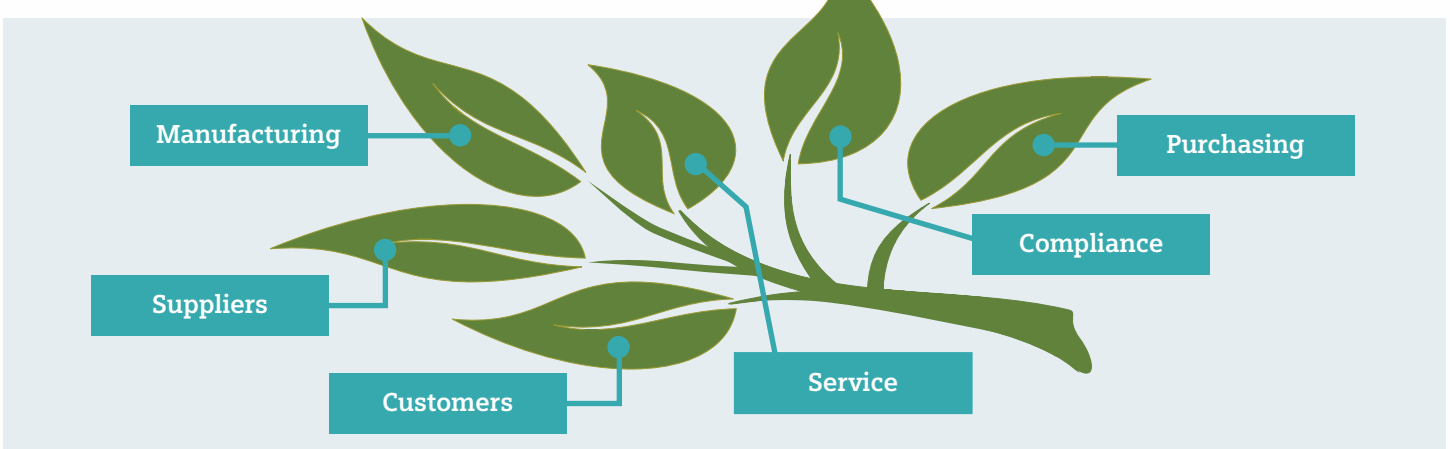

- ✓ Out-of-the-box functionality
- ✓ Preconfigured roles
- ✓ Standard best-practice workflows
- ✓ Preconfigured settings
