

DIGITAL INDUSTRIES SOFTWARE

Digital Manufacturing Genoa Showcase

Explore Siemens' complete digital industry experience for complex manufacturing

Welcome to the permanent Digital Manufacturing Genoa Showcase.

This is a state-of-the-art facility that uses the latest technologies to showcase **Siemens smart manufacturing digital threads**.

If you want to digitalize your manufacturing process and use a seamless flow of data from product design to manufacturing as well as create a digital replica of your production facilities and processes, this is the right place for you.

For more information and to book a session, please write to:

Five compelling reasons to visit the Digital Manufacturing Genoa Showcase:

1. Immerse yourself in a comprehensive digital industry experience. Learn firsthand about the Siemens Digital Industries Software's solutions for complex manufacturing, exploring **closed-loop manufacturing (CLM)** from design to execution and maintenance in the Industry 5.0 era. This includes part and assembly processes.
2. Meet and share knowledge with industry and product experts
Engage with industry experts to analyze the business process flow and

evaluate how Siemens' solutions can help you meet manufacturing requirements. Additionally, discover the latest technology trends from Siemens' research and development (R&D), such as **artificial intelligence (AI)**, **cloud-based solutions** and **low-code platforms**.

3. Participate in hands-on presentations based on real-world case studies

Witness detailed demonstrations of engineering to manufacturing processes, showcasing how Siemens' out-of-the-box solutions enable you to constantly align data and extend collaboration between Teamcenter® software for product lifecycle management (PLM), SAP for enterprise resource planning (ERP) and Opcenter™ software for manufacturing execution systems (MES). Learn how Siemens supports quality standards by leveraging nonconformance management, quality inspection, **statistical process control (SPC)**, and how using Opcenter facilitates operations with interactive **3D** content and clear instructions. Explore the collaboration between Teamcenter and Opcenter, supporting **change management** and providing as-planned versus as-built reporting for continuous improvement processes. Teamcenter and Opcenter are part of the Siemens Xcelerator

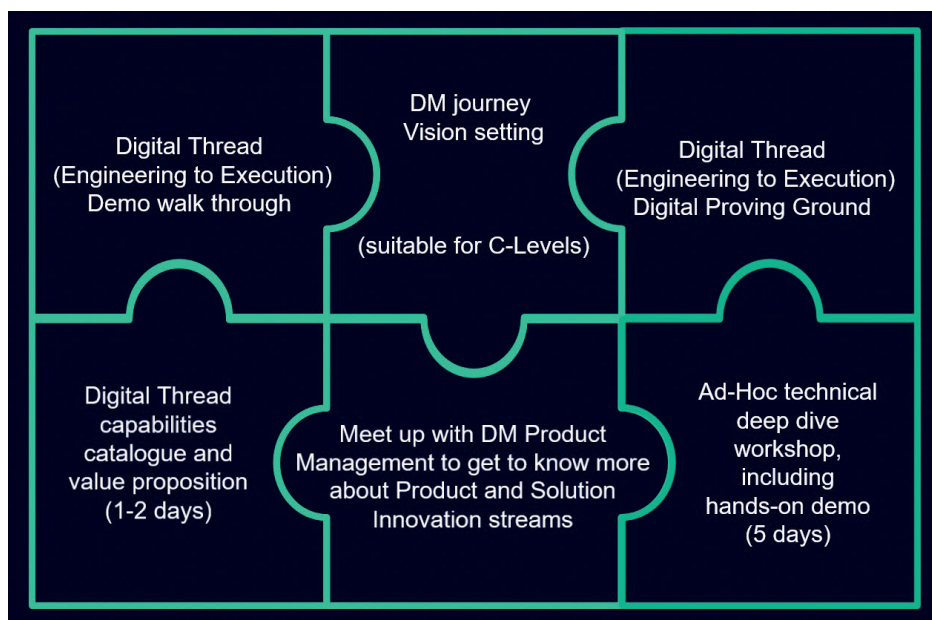

business platform of software, hardware and services.

4. Actively participate in tailor-made solution workshops

Take advantage of the opportunity to set up dedicated workshops specific to your solution needs. This includes an enablement session to ensure everyone has the necessary background and understanding, defining business cases based on your unique requirements and validating the solution baseline.

5. Enjoy the beautiful location of the Digital Manufacturing Genoa Showcase

If you have never visited Genoa, Italy, this is the perfect occasion to explore the city and its cultural treasures while enjoying the natural surroundings. Additionally, you can experience breathtaking views of the town and the Ligurian Sea, an inlet of the Mediterranean Sea, from our offices.
