

DIGITAL INDUSTRIES SOFTWARE

Plant Simulation user day

May 30, 2022, Estrel hotel, Berlin

Welcome to the Plant Simulation user conference. A place where Tecnomatix Plant Simulation users come together, share experiences, and improve knowledge and innovation using Siemens solutions.

| Plant Simulation User Day - Agenda

8:00 AM	Registration opens	
9:00 AM	What's New in Plant Simulation Dr. Georg Piepenbrock Plant Simulation Product Manager Siemens Digital Industries Software	
10:30 AM	Coffee break (30 minutes)	
11:00 AM	Presenting Plant Simulation data with Jupyter notebooks Marc Philip Hermans; Audi Hungaria Zrt. Zsolt Molnar; graphIT Ltd	Using Digital Twins to increase sustainability of a container terminal by optimizing AGVs battery storage utilization Carsten Eckert Subject matter expert HPC Hamburg Port Consulting GmbH
11:30 AM	Integrated Digital Twin approach for Virtual Commissioning of process & product Vito Lazazzera Digital Team Officer MASMEC S.p.A., Italy	STS Library for simulation of complex production and logistics Dirk Steinhauer Branch Manager SimPlan AG
12:00 PM	Data Farming using Plant Simulation and SimAssist Prof. Dr. Steffen Straßburger Head of Department Technische Universität Ilmenau	Virtual Reality visualization of complex digital twins in Plant Simulation by utilizing more3d Eduard Kinas; Managing Director Stefan J. Koch; Technical Director more3D
12:30 PM	Lunch 12:30-1:30	
1:30 PM	Plant Simulation: Fully automated simulation model application at THK Daniel Abdelsamed DX (Data Transformation) Engineer THK Manufacturing of America, Inc.	Digital Twin of an experimental smart manufacturing assembly system for the Industry 4.0 concept Prof. Dr. Jan Pitel Dr. Jozef Husar Technical University of Kosice
2:00 PM	How Plant Simulation drives digital transformation and optimization at THK Manufacturing of America Daniel Abdelsamed DX (Data Transformation) Engineer THK Manufacturing of America, Inc.	Mendix, Optimize my plant! The power of the Digital in the hands of factory operations! Pascal Dubuis; Président Inoprod Guillaume Cordonatto; Olivier Schmidt; Siemens
2:30 PM	Battery Manufacturing Library based on the Research Production Battery Cell Muenster Anja Munzke Battery manufacturing and Plant Simulation Expert Fraunhofer Institute for Casting, Composite and Processing Technology	Plant Simulation in internal warehousing & logistics projects Nick Peeters Sebastiaan Tuinstra Cards PLM Solutions
3:00 PM	Coffee break (30 minutes)	
3:30 PM	Benefits and potentials of point clouds in Plant Simulation Natalja Rube / Fraunhofer FFB Alexander Dilg / SimPlan AG	Accelerating model development, robustness, and accuracy through custom libraries: Lessons learned at Electrolux Arjun Ginoya Plant Simulation Expert Electrolux Rothenburg GmbH
4:00 PM	A Digital Twin to control a forwarding system using Plant Simulation Alexander Theling Dr. Jens Zimmermann Miebach Consulting GmbH	Utilizing Pointclouds in Plant Simulation and IntoSite Magnus Rönnäng FARO Technologies, Inc
4:30 PM	Digital model of a chocolate plant: From Virtual Commissioning to the Digital Twin Dr. Lucía Royo Pascual, Innovation Manager Sergio Escriche, Automation Engineer Electroingenium, Spain	
5:00 PM to 5:30 PM	Q&A Dr. Ulrich Rossgoderer Dr. Georg Piepenbrock Ralf Tobel Matthias Heinicke	
6:00 PM to 9:00 PM	Dinner at La Terrasse, Estrel Hotel
